

40 YEARS OF THE JOURNAL GENETIKA

Snežana MLADENović DRINIĆ and Kosana KONSTANTINOV

The Serbian Genetic Society, Belgrade, Serbia

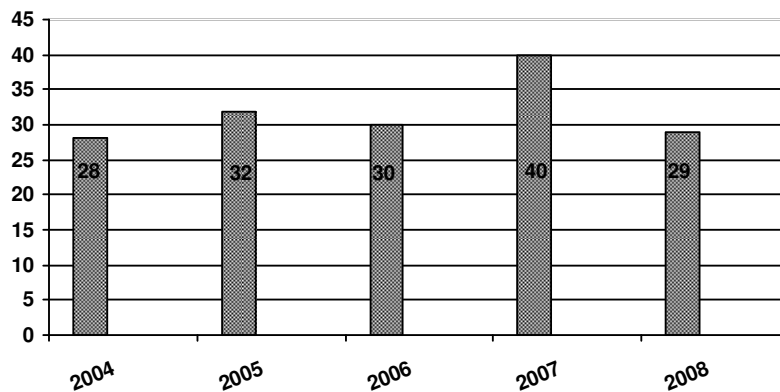

Drinić Mladenović S. and K.Konstantinov (2009): *40 years of the journal Genetika.*– Genetika, Vol. 41, No. 2, 225-228.

The journal of Serbian Genetics Society "Genetika" ("Genetics") was promoted 1969. as Acta Biologica Jugoslavica (ABI) Series F – Genetika. Dr. Janko Dumanović was appointed for the Editor in Chief. In 1997. the new international Editorial Committee took over editing of journal starting from Vol. 29, No.2, 1997. At same time Dr. Kosana Konstantinov was appointed as Editor in Chief. From vol. 40 Serbian Genetic Society is publisher of „Genetika“. The journal is published three times per annum. Full papers published in „Genetika“ from 2002 to nowadays is available online (<http://www.dgsgenetika.org.rs/izdavastvo-casopis-radovi-en.php>) as well as abstracts published from 1969 to 2001.

During 40 years in Journal Genetika was published 1150 scientific papers, average 28,7 paper per year. From 1969 to 1978 were published 299

papers, 1979-1988 309 papers, 270 papers from 1989-1998 and 272 papers during 1999-2008. Among 1150 published paper 159 was published during period 2004-2008 (graf.1).

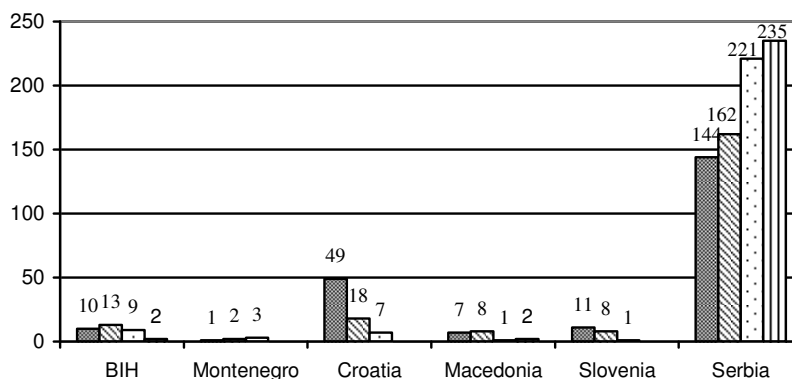

Graf 1. Number of paper in period 2004-2008

As first author or coauthors papers have been published 1715 authors, from them 71,2% from Serbia and 28,8% from abroad. Authors were from 46 countries. On the graf 2 and graf 3 are presented number of paper per countries and per countries of former SFRJ.

Graf 2. Number of papers per countries

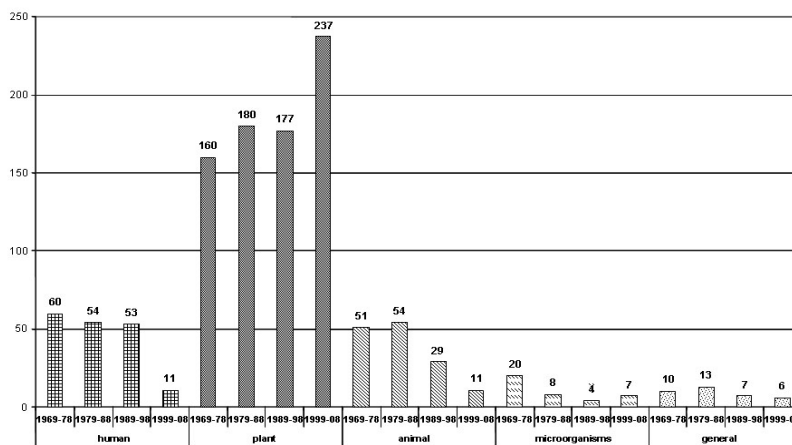

Number of paper per country of former SFRJ

Graf. 3 Number of paper per country of former SFRJ per decade

Structure of published papers according topic was: plant breeding 402, plant genetic 187, medical genetic 90, population genetic 115, cytogenetic 90, molecular genetics 87, quantitative genetics 63, mutagenesis 54, and genetic of microorganisms 15, evolutionally genetic 12, and other 9. As object plant was in 754 papers, human 178, animal 145, microorganisms 39, and 36 papers with common topic. Number of paper according object per decade are given on graf.4.

Number of paper according object

Graf 4. Number of peper according object per decade

From 2004 to nowday Journal "Genetika" is leading national journal. It is in DOI system from 2008.

40 GODINA ČASOPISA GENETIKA

Snežana Mladneović Drnić i Kosana Konstantinov

Društvo genetičara Srbije, Beograd

Časopis Društva genetičara Srbije „GENETIKA“ počeo je da izlazi 1969. godine kao ACTA BIOLOGICA IUGOSLAVICA (ABI) Serija F – GENETIKA. Od 2008 godine, vol. 40, časopis menja ime u „Genetika“. U elektronskoj formi na internet prezentaciji Društva genetičara Srbije (<http://www.dgsgenetika.org.rs/>) nalaze se integralne verzije radova objavljenih u časopisu od 2002. godine, a abstrakti iz perioda 1969-2001. godina. Tokom 40 godina izlaženja u časopisu „Genetika“ je objavljeno ukupno 1150 radova, odnosno u proseku 28,7 rada po godini. U periodu od 1969-78 objavljeno je 299 rada, 1979-88 309 rada, 270 rada u periodu 1989-98 i 272 rada tokom 1999-2008. Kao autori ili koautori radove je objavilo ukupno 1715 autora od toga 71,2% domaći i 28,8% strani autori. Autori su iz 46 države. Struktura objavljenih radova prema oblastima je sledeća: oplemenjivanje biljaka 402, biljna genetika 187, medicinska genetika 116, populaciona genetika 115, citogenetika 90, molekularna genetika 87, kvantitativna genetika 63, mutageneza 54, genetika mikroorganizama 15, evolucionarna genetika 12, ostalo 9. Kao objekat istraživanja biljke su bile zastupljene u 754 rada, čovek 178, životinje 145, mikroorganizmi 39, a 36 rada su imale opštu tematiku.
