

FIRST ANNOUNCEMENT

14th Balkan Congress on Human Genetics and 9th Rare Disease SEE Meeting

05 - 07 October 2023
Hotel "DoubleTree by Hilton", Skopje

“Genetic Diseases - from Diagnostics to Prevention and Therapy”

Distinguished experts, scientists, researchers, practitioners and patients in the field of human genetics, rare disease and other related fields,

It is a great honor and pleasure to invite you to the 14th Balkan Congress on Human Genetics and 9th Rare Disease SEE Meeting which will be held in October 05 - 07, 2023, at hotel “DoubleTree by Hilton” Skopje, North Macedonia.

This important event will bring together leading scientists, researchers, clinicians, and industry professionals to share their latest findings and developments in the field of genetics. The conference program will be arranged in a multidisciplinary manner to allow delegates to both explore issues pertinent to their own area of interest and to engage with other professionals outside of their specialty. These joined events are primarily dedicated to professionals in the field of human genetics, including but not limited to the fields of pediatrics, neurology, cardiology, hematology, oncology, obstetrics and gynecology, and rare diseases. The motto of the conference will be “Genetic diseases – from diagnostics to prevention and therapy” and will cover various areas related to diagnostics, prevention, and therapy of rare diseases as well as complex diseases influenced by genetic factors.

Deadline for abstract submission: 31.08.2023

Guidelines: mzhg.org.mk/abstract
