

**XXIII<sup>rd</sup>  
INTERNATIONAL  
CONGRESS  
OF GENETICS**

**GENETICS  
AND GENOMICS**  
*Linking Life and Society*

**16-21 JULY 2023**

**MELBOURNE CONVENTION &  
EXHIBITION CENTRE AUSTRALIA**

**[www.icg2023.com.au](http://www.icg2023.com.au)** – @genetics2023

HOSTED BY:

We are very pleased to advise the XXIIIrd International Congress of Genetics will be held in Melbourne Australia from 16-21 July 2023 and we would welcome members of your Society to join this truly global forum.

The Congress will bring the genetic and genomic communities together to examine the theme: **Genetics and Genomics – Linking Life and Society** highlighting the breadth of the Congress in covering fundamental discoveries in our science and applications to health, agriculture and the environment. The program will be led by the very best researchers from around the globe, including Nobel Prize winners, who will speak on contemporary and future advances in genetics and genomics. The biggest prize in Genetics, the Gruber Prize worth \$500,000 USD will be presented at the Melbourne Congress. Over 120 invited speakers from around the world will present in the 54 symposia sessions focused on six core themes in genetics and genomics. You will find more information on the website [here](#).

The Congress offers an exciting opportunity for your members to contribute to this global forum with call for abstracts now open for oral and poster presentations. Your members will have the chance to connect with colleagues from across the world exchanging ideas and research and building valuable professional networks that will extend beyond the Congress itself. To complement the scientific program, they will also be able to experience a showcase of the latest products and services in the exhibition, an integral element of the Congress.

We would welcome your support in promoting this significant event to your membership with particular focus on the call for abstracts (closing on 31 January 2023) and registration now being open. We have provided some promotional assets to assist you in this promotion and we can adapt these for you to suit your marketing platforms.

We would also encourage you to follow the Congress on twitter @genetics2023 and share content through your Society's platform.

**In appreciation of our support, we are also pleased to offer you a promotional code you can distribute to your members offering saving of AUD\$50 on the published registration fees on the website. They simply visit the website to register and enter the promotional code SOCIETY in the promotional discount field to automatically receive this saving – a value-add for your members.**

If you have any questions or require any further information, please do not hesitate to contact me.

We thank you in anticipation for our support and look forward to welcoming you and your members to be a part of this significant Congress.

Kind regards

**Professor Philip Batterham**  
Congress Convenor
